

Estimating

JCA

Job Cost Accounting

Estimate Accurately ...

- Estimate by rates or resources from item libraries. Copy estimate sections and items from template estimates

Ensure your Estimate is complete ...

- Using the "Items for Review" option, you can highlight specific areas that require greater attention

Comparison to job costs...

- Estimates can be converted to jobs and contracts within JCA job costing, to compare building cost to the original estimate.

Resource Code	Resource Description	Est Qty	Est Rate	Est Cost	Units	Exp Type	Notes
DURO	DUROSEAL SURFACE SEALER	1.00	10.00	10.00	10.00 SQ M	MATERIAL	
DOWELSQ	SQUARE DOWELS	1.00	6.00	6.00	6.00 EACH	MATERIAL	
DOWELLT	THREADED DOWELL BARS	1.00	15.00	15.00	15.00 NO.	MATERIAL	
140CH55	140x5 CHS	1.00	25.00	25.00	25.00 LIN M	MATERIAL	
125SH55	125x4.25x5 SHS	1.00	20.00	20.00	20.00 LIN M	MATERIAL	

Create a Knowledge base...

- Item quantities can be calculated from formulas that can be applied across the estimate.

Multiple Markup Calculations...

- Apply a different percentage mark up to different expense categories within the estimate.

Sub Estimate Production Gangs...

- Create sub estimates with details of labour and materials required to produce a unit in a time frame (m3/hr or LinMtr/Day etc)

Bid Calculations...

- Apply a different percentage mark up to different estimate sections, stages and groups.

Estimate History...

- Record and compile a history of estimates won or lost and make note future references.
